21st January

4th February

4th March

1st April

6th May

10th June

1st July

5th August

2nd September

Other live activities

1) Students will also gain access to the Innate Evolution on-line events for free, these dates vary over the 9 months.

(<https://innateevolution.com/events/>)

2) Students will also set up a time with other students to practice facilitating (voluntarily). We will help organise this from March onwards.

On-line resources

Students will have a years access to all the resources on the Innate Evolution on-line training site:

<https://innate-evolution.teachable.com>

Including all the 'facilitator resources' and a hidden video product showing principle based one to ones and facilitator resources helpful to the group.

Practice facilitating (voluntary)

For those who wish to get practical experience facilitating (not everyone may want to) we will help you organise 'pods' or groups of students who, as a group you get on-line and arrange a time to practice facilitating to one another.

Also when students have completed the training, they are welcome to give webinars with other students on the Innate Evolution live events platform, we will help you arrange this.
